

Environmental Policy

Xterna Group understands it has a responsibility to help protect and preserve the environment.

To this end the Company endeavours to carry out all reasonably practical measures to meet its responsibilities to reduce its impact on the environment.

The Company makes a commitment to:

- Achieve Positive net zero in year one and every forthcoming year.
- To maintain a ledger of achieving net zero that can be made available to investors, clients, and other business stakeholders.
-
- Ensure compliance with all current environmental legislation in the jurisdictions that Xterna operates.
- Seek to identify & be forthcoming environmental legislation to ensure timely compliance with such new legislation.
- Seek to improve its management of energy, emissions, use of resources and waste performance to prevent pollution and provide resources to support effective improvement opportunities.
- Create innovative methods to offset carbon creation & waste creation.
- Adopt sustainable procurement practices and work with customers and suppliers to improve energy performance throughout the Company's supply chain.
- Review this statement and other relevant environmental documentation at regular intervals.
- Where possible Xterna staff, suppliers, contractors utilise the most carbon efficient methods to attempt carbon neutrality.
